Virtual Classroom Training

Classroom Training

Is the customer responsible for the learning environment?

Yes, the student requires a space where they will not be interrupted which is equipped with a PC, internet connection, and telephone

No, CPM provides a room and all equipment required for the training event

Does the student need to do any technical setup prior to attending the class?

Yes, 2 business days prior to course start an e-mail will be sent to the student advising exactly what they must do to prepare themselves for the class.

Activities include:

- installation of required software used for presentation and hands-on
- downloading of electronic version of course manual
- performing PC network connection, bandwidth, and latency tests

No, all technical setup is performed by CPM Solutions

Is travel required to attend class?

No

Yes, depending on location of training delivery

Are there additional training costs beyond potential travel costs?

Yes, if the registered student is connecting remotely from outside the US or Canada they will have to pay the long-distance telephone charges from their location to the Canada. Some courses may offer a Voice-Over-IP solution which would eliminate long distance charges.

No
